Dear [redacted]

Ref: Bodmin Town Council - Heating Oil Club

We are contacting you as we have a number of members in your parish who have formed a local heating oil club using our service.

Our club works best with as many members as possible. We thought you might be interested in informing your local community who would benefit from reducing their heating oil bills.

Our service is free. We aim to save as much money for our members as possible by purchasing the oil in bulk from local suppliers who we negotiate with on our member's behalf.

This also means that a village will only have one oil tanker delivering to a number of homes on the same day rather than many deliveries to individual households on different days by different suppliers. This is of great benefit to your village and our environment. Due to the size of the clubs membership, we tend to order most weekends allowing members to order when required.

Our site is internet based; therefore members must have access to the internet in order to join.

The site is www.oil-club.co.uk. It is very easy to use so please take a look. If you would like some of our leaflets for distribution (sample enclosed), please email me with the quantity required and I shall be happy to send them to you.

If you have any questions, please do not hesitate to contact me.

Yours faithfully

Mandy Cullen
