

BODMIN NEIGHBOURHOOD PLAN

CALL FOR WORKING GROUP MEMBERS

Work on the Bodmin Neighbourhood Plan is underway.

Following the community wide survey of residents during the summer 2021, the Town Council and a steering group have been working with other community groups and consultants to develop the plan further.

The next stage requires work on a number of topics to identify the priorities, projects and other actions that will form the plan. We would like to get as many local people involved in the project as we can and are looking for members of the community to join one or more working groups to assist the steering group.

The topics and themes that we are going to be exploring and working on, are set out below. If you have an interest in any of these areas, or perhaps have some experience or skills that could help the working group, then we would like to hear from you.

We are looking for people to work as part of a small team supported by Town Councillors, members of the local community and our consultants for a period of around 6 months. The work of each group will vary, but the commitment is likely to involve attendance at a limited number of meetings/workshops.

If you are interested in joining the team or would like further information please request an expression of interest form by 30th June 2022 from Bodmin Town Council - E: info@bodmin.gov.uk T: 01208 77616

<p>Town Centre and tourism</p>	<p>Housing</p>	<p>Movement and accessibility</p>	<p>Open space, greening and biodiversity</p>
<p>Identify important areas and sites for regeneration and improvements.</p>	<p>Support the delivery of homes to meet the needs of local people, including affordable homes, homes for the older members of the community and self-build opportunities.</p>	<p>Improve access to public transport and improve safety in the town.</p>	<p>Develop a green space strategy for the town, protect existing important spaces and explore the potential for the provision of more green space and environmental enhancements.</p>
<p>Regeneration and employment</p>	<p>Design and heritage</p>	<p>Community infrastructure and education</p>	
<p>Identify the key sites for regeneration and new employment development.</p>	<p>Prepare guidance to improve the quality of design of new build development and other important historic areas in the town.</p>	<p>Identify sites for new community infrastructure and facilities.</p>
